semi-shade
shade

Months in flower											
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Months in leaf											
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

Edible plant? No - do not eat! All parts of delphinium plants are highly TOXIC!

Useful plant? Some delphiniums have been used medicinally in the past, but do not use! Highly TOXIC!

Always seek advice from a professional before using a plant medicinally.

Hive bees, bumble bees, and solitary bees all need both nectar and pollen. Hive bees also need enough to make spare honey for people. For hive bees, see also leaflets from the British Beekeepers Association at www.britishbee.org.uk/information_leaflets.php. For bumble bees, see also www.bumblebeeconservationtrust.co.uk/gardening_for_bumblebees.htm. For more plants, see F.N. Howes *Plants and Beekeeping* 1979 Faber & Faber ISBN 0 571 11358 3, out of print but available second-hand For more information on edible and useful plants, see www.pfaf.org. For native plants and animals associated with them, see the Postcode Plants Database <http://www.nhm.ac.uk/fff/index.html>.
